**Informed Consent for Chiropractic Care**

I have been advised that chiropractic care, like all forms of health care, holds certain risks. While the risks are most often minimal, complications such as sprain/strain injuries, irritation of a disc condition, dislocations of joints, and although very rare, fractures, and possible stroke (estimated to be related in one in one million to one in two million cervical adjustments), have been associated with chiropractic adjustments.

Prior to receiving chiropractic care in the chiropractic office, health history and physical examination will be completed. These procedures are performed to assess your specific conditions, your overall health, and in particular your spinal health. These procedures will assist us in determining if chiropractic care is needed, or if any further examinations or studies are needed. In addition, they will help us determine if there is any reason to modify your care or provide you with a referral to another health care provider. All relevant findings will be reported to you along with a care plan prior to beginning care. • I understand and accept that there are risks associated with chiropractic care and give consent to the examination that the doctor deems necessary and the chiropractic care, including spinal adjustments, as reported following my assessment.

• I authorize and request payment of insurance benefits directly to Dr. Tadd Terry, D.C. I agree that this authorization will cover all services rendered until I revoke the authorization. I agree that a photocopy of this form may be used in place of the original. All professional services rendered are charged to the practice member. It is customary to pay for services when rendered unless other arrangements have been made in advance. I understand that I am financially responsible for charges not covered by this assignment.
